RUA MADEIRA

Every form is born of matter, but it is light that gives it presence

Light and Matter are the two pillars of this collection. Light reveals. It is light that picks out the contour, draws volumes and defines atmospheres. In architecture and in furniture, light turns what already exists into something to be perceived. Matter gives form. It is the starting point of design: what has weight, density and texture, what can be moulded, cut, built. In this collection we explore the dialogue between these two forces. Light travels across

matter and reveals the drawing. Matter absorbs light and answers with form. Each piece is born of that direct meeting between the visible and the tangible. The inspiration is not hidden. It lies on the surface, in the lines, in the contours.

The object reveals its origin plainly. Light and Matter, together, hold the logic of every piece, from the first stroke to its presence in the room.

SOFAS

The Lombada Sofa has a continuous rise through seat and backrest that defines its silhouette.

The central curve creates a dynamic, functional drawing that organises the upholstery into two modules and gives value to the recess between them. It is a sofa that defines, orients and sets the rhythm of a room, bringing out ambientes amplos e layouts modular.

The Orla Sofa presents a sculptural drawing of continuous curves and soft edges, creating a sense of movement. The base, which is the support for the generous seats, es its organic, welcoming character.

The modules articulate like a horizon line, allowing fluid compositions that follow the architecture of the room.

The design of the Asta sofa starts from broad, well-defined volumes, with rounded corners, a low base and a construction that favours visual continuity. The modules draw a piece in perfect balance between curve and proportion.

The integrated arms and generous seat reinforce the sense of an upholstered block, while the loose back cushions bring a lighter, more comfortable reading to the whole. In the Asta, the drawing celebrates the strength of form and the presence of upholstery as the central element in the architecture of a room.

Inspired by tree trunks, the Tronco starts from the idea of living mass: continuous volumes, soft corners and proportions that embrace. The lines are precise, like a cut revealing growth rings; the drawing shows its layers without excess, letting the material speak.

The Tronco Sofa works the seat in dialogue with the subtle setback of the backrest, shifting organic volumes of continuous reading. The generous padding, covered in fabrics from our own selection and, on request, in leather, offers comfort that invites you to conversas prolongadas.

Note: because of its design and structure, the Tronco Sofa has two different widths across the central part of the backrests. In configurations where the seat measures 1.50 m or more, the central part will be 10 cm wider than the remaining modules.

Inspired by the undulating forms of the dunes, its drawing presents organic curves that denotam serenidade e fluidez.

Every line and detail was carefully conceived to reflect natural harmony, turning a room into an artistic, enveloping experience.

Part of the "Earth" category in the Atmosfera collection, the Duna Sofa goes beyond the traditional idea of furniture, bringing a modern approach that combines art and function. It is a piece that invites contemplation and comfort, creating a dialogue between the interior and the paisagens naturais.

The Jubá Sofa is a celebration of the majesty of humpback whales, carrying the essence of the sea into an authentic, contemporary design. Its subtle details recall whale's belly, capturing the organic beauty and grandeur of the ocean in a single piece.

Every curve was drawn to evoke the depth and movement of water, creating an intimate connection between the room habitado e o ambiente marinho.

Part of the "Sea" category in the Atmosfera collection, the Jubá Sofa stands for the harmonious fusion of art and nature. It is more than furniture; it is a sensory experience that invites contemplation and immersion in a world where contemporary design finds its inspiration in natural elements.

Inspired by the open wings of seagulls,
design presents fluid, elegant lines
its that capture the graceful movement of
these birds in full flight. Every curve and
detail was carefully considered to convey
a sense of breadth and connection with
the infinite, turning the room into a space
of contemplation and harmony.

Part of the "Sky" category in the
Atmosfera collection, the OTA Sofa is the
perfect fusion of art and function in a
contemporary perspective. It is a piece
that invites relaxation and reflection,
raising interior design to a new level of
authenticity. More than furniture, the OTA
is a sensory experience that brings Sofa
the essence of the sky into your space,
celebrating the beauty of the natural
world through an approach
moderna e original.

CONFIGURATIONS
Maracatu

The sinuous curves of the racing circuit bring the Senna Sofa to life, a piece in homage to Ayrton Senna, eternal icon of automobilismo brasileiro e mundial.

Every line of the drawing carries movement and precision, reflecting the fluency with which the driver mastered the track.

More than a sofa, it is a tribute: to the harmony between performance and elegance, power and lightness. The Senna Sofa was born to occupy a room the way symbols occupy memory — with striking presence, emotion e legado.

The buriti, the palm that stands for Brazil's waters, inspires a sofa that balances strength and softness. Its lines recall the organic drawing of the stem and of the leaves that open like a fan.

The firm structure supports generous forms, drawn to welcome, while the finishes reveal textures that recall the handwoven work traditionally made from buriti.

More than a seat, the Buriti Sofa is a celebration of the Brazilian landscape: solidity rising from the root, fluidity spreading through every curve. An invitation to rest, to contemplation and to the meeting of design authored design and nature.

The Memory is a sofa of generous proportions, welcoming design and abundant comfort. Its reclining system widens the way it can be used, letting the piece follow the different moments of a home: receiving, resting, watching a film or simply staying a little longer in the living room.

Its name comes from the idea that a home is also made of what is lived in it. A sofa meant to occupy a room naturally and to accompany stories, gatherings and memories over time.

Sensation is a sofa that translates the art of feeling. Its continuous curves and balanced proportions create a generous piece, made to welcome without excess. The minimalist drawing opens into a fluid surface where each module connects naturally, as if movement were part of the form itself.

The lightness of the raised base contrasts with the density of the volumes, giving the impression that the sofa floats in the room. The armrests and backrests invite complete rest, in a precise balance of softness and support.

Fragmento springs from the idea that each part can be whole in itself, yet gains its power in meeting the whole. Its organic drawing, of curved and fluid lines, recalls rock shaped by time: fragments that come together in harmony to compose a piece escultural.

The continuous backrest wraps the body gently, while the seat and the ottoman speak to one another as natural extensions, inviting new configurations in the room. The absence of excess gives value to the pure gesture of the form — a that is at once an object of Sofa contemplation and of welcome.

Fragmento is Brazilian authored design in translation: a meeting of art and comfort, of fragments that together create a landscape of their own in a room.

On the great stone walls of Capitólio,
recessed straight lines stand out in a play of
encaixes e alturas.

Walls that form a landscape of their
own which, like the Capitólio sofa, is
marked by linear forms and backrests
whose surface presents a part
irregularmente reentrante.

The Unai Sofa balances comfort and visual lightness. Its generous proportions, loose cushions and rounded arms create a sense of immediate welcome, enhanced with details, giving the whole a contemporary, elegant look.

A piece that combines striking presence with subtlety, becoming the focal point of a room naturally and with sophistication.

On one side, an orthogonal base and backrest; on the other, a sinuous, striking counterpoint inspired by the hulls of canoes at rest on still water.

Seus laterais tornam-se elementos shape the design while emphasising the seat and the backrest. A salute to freedom of form. With reclining seat and backrest, the sofa carries the technology to automate these movements, making sitting an experience and a longing that brings us closer to the calm observed by the designer.

Inspired by the Ruins of Entre Rios, the design gives seats and arms asymmetrical proportions, creating a play of joints and configurations worthy of nature herself.

Its comfort lies in the seat and the backrest, filled with specially developed foams that adapt to the body. The Borá sofa reveals a spatial richness all of its own through its proportions and curved lines.

The Block Sofa springs from the idea of turning modules into habitable architecture.

Its pure, geometric forms recall building blocks, joining in varied compositions to create different landscapes within a room. Each module is conceived as an independent unit, yet gains its strength in the group, allowing versatile arrangements — from relaxed gatherings to moments of rest prolonged.

With minimalist lines and solid volumes, the Block proposes a contemporary, almost sculptural look that suits both generous rooms and projects that call for flexibility. A sofa that does not settle for being a seat: it becomes a platform of togetherness, a stage for conversation and a point of

Mimoso is born of the meeting of memory and form. Inspired by the playful drawing of a teddy bear, it translates into design the tenderness of its creator's own memories.

For all its affectionate inspiration, the drawing is timeless: simple, elegant and versatile, able to cross generations without losing its essence.

The Zípe Armchair comes from an unexpected inspiration: the gesture of closing a zip. Its arms reinterpret that iconic everyday detail, bringing a direct, graphic and stylish reference into the design.

With organic lines and balanced proportions, the Zípe combines comfort and irreverence. It is a piece with identity: simple at first sight, but striking in its detail.

The Caju Armchair emerges as a piece that carries the organic quality and the essence of the earth.

Its curved, welcoming lines evoke the elegant simplicity of nature, referring directly to the fluid shape of the cashew fruit, which stands for authenticity and cultural roots. Every detail reveals a harmonious fusion of form and function, reflecting a design in dialogue with the natural world and with our own sense of belonging to it.

The Caju Armchair belongs to the "Earth" concept of the Atmosfera collection, bringing a contemporary approach to furniture in which sculptural form embraces a room with lightness and presence. More than furniture, it is a functional work of art, made for those who see design as an extension of the way they live.

The Jubá Armchair is a celebration of
majesty of humpback whales, carrying the
the essence of the sea in an

authentic, contemporary design.

Its fluid lines and subtle creases recall
to the singular detail of the whale's belly,
capturing the organic beauty and
grandeur of the ocean in a single piece.
Every curve was drawn to evoke the
depth and movement of water, creating
an intimate connection between the room
habitado e o ambiente marinho.

Part of the "Sea" category in the
Atmosfera collection, the Jubá Armchair
invites contemplation and immersion in a
world where contemporary design finds
its inspiration in natural elements. With the
Jubá Armchair, the sea becomes a living
presence, bringing authenticity and an

The Tannat Armchair arrives as a point of balance between tradition and the present day. Its name evokes strength, character and sophistication.

With welcoming lines and carefully studied proportions, it invites rest without giving up elegance. The volumes are modulated so as to combine comfort and posture, with backrests that embrace and seats that support gently.

Working as a centrepiece in living rooms, lounges or any space that values design, the Tannat acts as a bridge between the useful and the beautiful: an invitation to daily use that will not shy away from taking the lead.

BEDS & COMPLE- -MENTOS

Inspired by the imposing humpback whales, its structure carries subtle creases that evoke the unmistakable markings on the belly of these giants of the sea.

This reference to the marine world brings a sense of fluidity and depth to the room, establishing an intimate link with the serenity of water.

More than a piece of furniture, the Jubá Bed offers an enveloping comfort that invites rest and contemplation. Its organic lines and carefully worked details create a welcoming, artistic atmosphere, reflecting the harmony between nature and contemporary living. Part of the "Sea" category in the Atmosfera collection, this bed turns the space of rest into a singular sensory experience, celebrating the authenticity and inspiration of natural elements.

Hug is an embrace turned into furniture. This bed combines robustness and softness, with a firm structure and inviting surfaces. The headboard and the contours were drawn to wrap around whoever rests there, like an embrace.

Versatile and modern, it adapts to different styles: from the most neutral to the boldest, it keeps its identity of comfort acolhedor.

The Ostra Table emerges as an authentic expression of the organic beauty of the sea, by the continuous and irregular shapes of the fluid, enveloping essence of the ocean, carrying natural elements into a contemporary piece and functional.

The soft curves and sculpted volumes evoke the elegance inherent to oysters, creating a deep connection between architecture and nature.

Part of the "Sea" category in the Atmosfera, the Ostra Table becomes part of your room, bringing the serenity and inspiration of water into everyday life.

MATTRESSES

The polychromy of Greek architecture stood for the purity of materials, guaranteed the quality of construction and inspired the design of Rua Madeira mattresses. The cradle of Western civilisation, in the age of classical architecture, has a white aesthetic — as do our products, which alongside their minimalist look offer comfort without equal. All so that you obtain the highest quality of sleep, night after night.

ULTRACEL CHARACTERISTICS

DIFFERENTIATED FOAM THAT PROVIDES HIGH DURABILITY AND SOFTNESS, WITH A NEAR-ZERO DEFORMATION COEFFICIENT.*

* ACCORDING TO A TEST IN WHICH THE FOAM WAS PLACED UNDER A CAR TIRE FOR 12 HOURS AND KEPT 100% OF ITS ORIGINAL SHAPE.

FLAME-RETARDANT FOAMS

THE POLYURETHANE FOAMS USED BY RUA MADEIRA IN ITS PRODUCT LINE HAVE A CHEMICAL TREATMENT THAT MAKES THEM SELF-EXTINGUISHING (FLAME-RETARDANT). WHEN EXPOSED TO FIRE, THEIR BURNING RATE IS SIGNIFICANTLY SLOWED DOWN AND, WHEN THE FLAME IS REMOVED, THE FIRE IN THE FOAM IS EXTINGUISHED. IT IS IMPORTANT TO NOTE THAT THE FABRICS, FIBERS, ELASTIC BELTING, WOODEN STRUCTURE AND OTHER COMPONENTS THAT ARE PART OF THESE PRODUCTS DO NOT HAVE THIS FEATURE. THEREFORE, THE PRODUCTS SHOULD ALWAYS BE KEPT AWAY FROM OPEN FLAMES, CIGARETTES, ETC. IN THE EVENT OF AN ACCIDENT, THE SPEED OF FLAME PROPAGATION WILL BE CONSIDERABLY REDUCED, WHICH WILL HELP EXTINGUISH THE FIRE.

- PRINTED CUSTOMER-SUPPLIED FABRICS: 20% more than the indicated yardage must be sent.
- WE DO NOT RECOMMEND UPHOLSTERING ARTICULATED PRODUCTS IN LEATHER AND/OR SYNTHETIC LEATHER, AS THE MATERIAL MAY BECOME DAMAGED OVER TIME IN AREAS WHERE THE PRODUCT IS SUBJECT TO FRICTION CAUSED BY MOVEMENT.
- WHEN UPHOLSTERED IN LEATHER, DUE TO THE SIZE LIMITATIONS OF THE HIDE, PRODUCTS MAY HAVE ADDITIONAL SEAMS IN SOME PARTS.
- BONDED LEATHER IS AVAILABLE ONLY FOR COVERING DETAILS AND FINISHES. IT IS NOT POSSIBLE TO UPHOLSTER AN ENTIRE PRODUCT IN BONDED LEATHER.

A person wearing a tan coat with wide sleeves and a ribbed cuff stands behind a large, light-colored sofa. The setting is a modern interior with wood-paneled walls and a light-colored floor. The text "RUA MADEIRA" is overlaid on the sofa.
